* Note the microCHP pilot will support up to 30,000 installations with a review to start when the 12,000th installation has occurred

** Definitions of terms used here are included with the table on page 47

87. Note that where a technology is on a banding boundary, the installation will be eligible for the higher tariff (i.e. it will be classed as in the lower capacity band). A full table of tariff levels to 2020 is available on page 47.
